

Certificate

ECOLOOP – 0017-09-19-ECO-DS

This is to certify that:

Best Plastic Management GmbH
Industriestraße 20-24
26219 Bösel

has met the required standards for certification under the ecoloop Scheme¹.

The certified ecoloop.network.partner is a recycling company.

The Certification is valid until

15/09/2022

The principles for the documentation of the waste nature of the raw materials used and the allocation via the mass balance process to the individual certified products were tested and confirmed in the audit by **Dirk Stolze** of **ecocycle GmbH** on **19.09.2019**.

Details can be found in the certificates of the single approved products.

Elsdorf, 19.09.2019

A handwritten signature in blue ink, appearing to read 'Dirk Stolze', is written over a horizontal line.

¹ Details are available in ecoloop modul 2 at www.ecoloop.network.

Certificate

Attn.:

Best Plastic Management GmbH
Industriestraße 20-24
26219 Bösel

The following product supplied by  **bpm**
BETTER FOR THE PLANET

BPM-Propylen 20101 different colors

has been

manufactured by using at least 98 % allocated recycled material as feedstock.

The waste-born origin of the recycled material and the allocation process has been audited by ecocycle GmbH. This Certificate

Certificate No: EC-2019-EL-117

Audit: 19. September 2019

Period of evaluation: January 2019 – August 2019

Certificate validity¹ until 18.09.2022

documents, that the claim

“manufactured using at least 98 % allocated recycled material as feedstock”

was found to be in conformance with the principles
of ISO 14021:2016 and other norms².

A handwritten signature in blue ink, appearing to read "J. Böke", positioned above a horizontal line.

¹ Unless the certificate EC-2019-EL-117 is cancelled on an earlier date.

² Details are available in ecoloop modul 2 at www.ecoloop.network.

BPM GmbH is a family-owned, internationally active company with a focus on the disposal and recycling of plastic production residues. We manufacture regrinds and regranulates from pure residual plastics.

We currently produce over 1,500 tonnes of regrind and regranulate per month. With an annual production of 20,000 tonnes, we have a turnover of around twelve million euros.

Founded in 1993 by Peter Gribbe under the name Bösel Recycling Management GmbH, our company has been managed for more than 15 years by his daughter, the managing partner Stephanie Kötter-Gribbe. She has developed BPM into a producer of high-quality regranulates and a developer of sustainable disposal concepts.
