ECOLOOP – 0017-09-19-ECO-DS

This is to certify that:

Best Plastic Management GmbH
Industriestraße 20-24
26219 Bösel

has met the required standards for certification under the ecoloop Scheme[1].
The certified ecoloop.network.partner is a recycling company.

The Certification is valid until

15/09/2022

The principles for the documentation of the waste nature of the raw materials used and the allocation via the mass balance process to the individual certified products were tested and confirmed in the audit by **Dirk Stolze** of **ecocycle GmbH** on **19.09.2019.**

Details can be found in the certificates of the single approved products.

Elsdorf, 19.09.2019

BETTER FOR THE PLANET

BPM GmbH is a family-owned, internationally active company with a focus on the disposal and recycling of plastic production residues. We manufacture regrinds and regranulates from pure residual plastics.

We currently produce over 1,500 tonnes of regrind and regranulate per month. With an annual production of 20,000 tonnes, we have a turnover of around twelve million euros.

Founded in 1993 by Peter Gribbe under the name Bösel Recycling Management GmbH, our company has been managed for more than 15 years by his daughter, the managing partner Stephanie Kötter-Gribbe. She has developed BPM into a producer of high-quality regranulates and a developer of sustainable disposal concepts.
